

## **Boulder – Elkhorn Metals, Nutrients, Sediment, & Temperature TMDLs**

February 28, 2012 Stakeholder Meeting

### **Streams Included in this Project:**

Basin Creek, Big Limber Gulch, Bison Creek, Boulder River, Cataract Creek, Elkhorn Creek, High Ore Creek, Little Boulder River, North Fork Little Boulder River, Lowland Creek, McCarty Creek, Muskrat Creek, Nursery Creek, and Uncle Sam Gulch

### **Boulder - Elkhorn Project Website**

<http://montanatmdlflathead.pbworks.com/>

Even though “flathead” is included in the web address, this site contains several pages related to the Boulder – Elkhorn TMDLs.

This site contains information on:

- The project location and boundaries
- Streams included in the project and their water quality impairments
- Pictures of monitoring locations
- Project announcements and updates
- Copies of meeting presentations
- Assessment reports available for review

The draft document will also be posted on this site when it is available for stakeholder review.

### **Boulder – Elkhorn TMDL Project Contacts:**

Christina Staten, Project Coordinator, [cstaten@mt.gov](mailto:cstaten@mt.gov), (406) 444-2836

Tim Byron, Metals Project Manager, [tbyron@mt.gov](mailto:tbyron@mt.gov), (406) 444-5341

Lou Volpe, Nutrients Project Manager, [lvolpe@mt.gov](mailto:lvolpe@mt.gov), (406) 444-6742

Jim Bond, Sediment & Temperature Project Manager, [jabond@mt.gov](mailto:jabond@mt.gov), (406) 444-3548

### **Water Quality Information for Streams in the Boulder River Watershed**

<http://www.cwaic.mt.gov/>

- Click on: Begin Search
- Then select “Boulder-Elkhorn” in the TMDL Planning Area drop-down list under Step 2. The site will then provide you with a list of streams that have been monitored in the Boulder-Elkhorn TMDL Planning Area.
- Click on each stream’s “Summary Report” to see information on the stream’s water quality status, probable causes of impairment, and probable sources of impairment.
